Your Work Style

What motivates you? What do you find satisfying? What sorts of tasks and activities could you do every day, without getting bored?

These are key questions to ask when searching for a career. Your ideal career will make the most of your strengths, so that your work feels natural and comfortable to you. It will tap into your core motivations, so that you have a sense that what you do is important and authentic to who you are. It will also suit you in a practical sense, by asking you to work on the sorts of tasks and activities that you naturally enjoy.

The chart below describes how you process information and how you approach the problem-solving process. To read this chart and the other charts in this section, look at the size of each quadrant. A larger area indicates that a particular style is a better fit for you. Smaller areas indicate that the style is not a very good fit.

**HUMANITARIAN**
Driven to make the world a better place. Creative and imaginative in coming up with insightful solutions to meaningful problems.

**CARETAKER**
Wants to be of service to others. Prefers to work within established institutions to find ways to maintain stability and security.

**INNOVATOR**
Likes to solve complex, rational problems. Uses analytical skills to come up with innovative ways to improve logical systems.

**PRAGMATIST**
Wants to ensure accuracy and efficiency. Enjoys working within established, logical systems to accomplish practical, real-world tasks.
Your Career Interests

This section shows your top career interest areas. There are 6 total interest areas, each with its own set of typical work tasks, roles, and values. Some of these interest areas will appeal to you, while others will be less attractive. Choosing a career which is a good match for your interest profile ensures that you enjoy your daily work and get satisfaction out of your accomplishments.

- AVERAGE EARNINGS: $119,250
- PROJECTED GROWTH: 8%

  Lawyers advise and represent individuals, businesses, and government agencies on legal issues and disputes.
About Pediatricians

Pediatricians are doctors who manage the health of your child, including physical, behavior, and mental health issues. They're trained to diagnose and treat childhood illnesses, from minor health problems to serious diseases.
Pediatricians typically need a bachelor's degree, a degree from a medical school, which takes 4 years to complete, and, 3 to 7 years in internship and residency programs. The classes you're going to need to take are basic Sciences (biology, chemistry, physics, algebra, geometry, calculus if possible).
Colleges

Wayne State University

University of Dearborn Ann Arbor
The average entry level salary for a pediatrician is $134,103 to $148,082.

It ranges from $173,802 to $238,444.

In Michigan the average salary is $160,619 and the highest is $200,000+.
